

Revised Topic Proposal Instructions & Requirements:

Based on the feedback you receive and your personal feelings and interest, narrow your three initial topics to JUST ONE that you think will be the best choice. Your revised proposal will focus on this topic only and should contain the following elements and information:

1. Name your topic and briefly describe it in 1-2 sentences.
2. Explain briefly why you are interested in this topic and what your reasons are for choosing it.
3. Identify anything in particular about your topic that you'd like to learn more about and/or explore.
4. List and briefly explain any difficulties and/or challenges you might experience when writing about this topic.
5. Identify the specific genres you have chosen to include in your project; for each genre, explain the reasons why you think each genre is a good choice, what it will help you to communicate, and why you think each one "fits" well with your other genre choices. (NOTE: You will likely need to do a little bit of online research to learn about some of the genres that are unfamiliar to you. Please do this research before deciding which genres you will include in your project.)

This is a formal assignment and must therefore be typed and formatted according to the guidelines in the syllabus. I will respond to your proposal with specific feedback and suggestions as quickly as possible.
